MESSAGE FROM THE PRODUCER

Welcome home!

On behalf of the entire team, it is my great pleasure to welcome you to the Master/slave Conference, where this year's theme is "Be the Change". Whether you're joining us for the first time or returning as a valued member of our community, we're honored to have you with us. In a world that's constantly evolving, the need for courageous leadership, bold ideas, and meaningful action has never been greater. This year's theme isn't just a call to action - it's a recognition of the power each of us holds to shape the future. Through your work, your VOICE, and your presence here, you embody what it means to be the change. You are not just there to learn - you are here to contribute, to question, to inspire, and to lead. Across the next few days, we invite you to fully engage with the session, speakers, and on another. Lean into difficult conversations. Celebrate bold ideas. Embrace the discomfort that sometimes comes with growth. Because that is where real change begins. As your conference producer, I want to personally thank you for choosing to spend your time with us. It is my hope that this experience not only equips you with tools and ideas - but inspires you to be the change you want to see. Thank you for being part of this incredible community. Let's spark transformation together!

See you soon!

Master Taíno's KINKY TALES

CONVERSATION WITH MASTER TAINO
FRIDAY, 4 PM

"Master Taino has chosen to share with us the story of who he is. Through a series of memories and letters we, the reader, get to peek in on the evolution of both the man and the Leatherman."

Mama Vi

"Kinky Tales is a beautiful patchwork quilt of kink story snippets that give the reader some insight into the experiences that helped set free and guide the Spirit to become who we know today as Master Taíno."

slave Rick

"Master Taíno's writings gave me an understanding of the depth of a Leatherman's heart. Caring and Naughty. Erotic and Deep. My dear friend, your words bring me joy!"

Master J

Kinky Tales

Real stories of my journey

Master Taíno

"From boyhood experiences of unidentified feelings and attractions, through the young man finding community and himself, to the person seen as an elder and leader in the lifestyle today, anecdotal experiences along the way give us some insight into the man we see before us today."

Sir Guy

"While reading interesting stories can be pleasure enough in and of itself, discovering how each of the events and relationships that they chronicle served to develop the author into the man, Master, and kink community leader he is today not only deepens that pleasure, it encourages the reader to appreciate how the stories of their own life have molded and shaped them as well."

Master Skip

MESSAGE FROM THE FOUNDER

In the years prior to our first summer conference in 2004, I began this amazing journey with the support and encouragement of a small circle of friends and family, to create a much-needed educational event for the Master/slave community. To run the Master/slave

Conference, we founded MTTA, Inc., a non-profit educational organization. What a ride these years have been, filled with profound joy and pleasure as well as heartbreak and tears at the loss of some very dear friends and colleagues.

As we enter our 21st year, MTTA and the MsC producers, staff and volunteers are proud of what we have accomplished together. I strongly believe that leaders must pass the torch to younger generations and that is what I have been doing over the past few years. MsC 2022 marked the end of my 18-year tenure as Executive Producer of MsC and now at this year's conference, I am ending my 21-year tenure as Executive Director of MTTA. From now on, slave

Charles will be the new Executive Director of MTTA, the organization overseeing all our programs. I will remain as President of the Board of Directors.

The Board of Directors, Executive committee, staff and volunteers welcome all of you to the 2025 edition of MsC and I encourage you to make the most of this remarkable 5-day conference, enjoying all the educational opportunities, scheduled and informal, developing new friendships as you network with like-minded folks, and refreshing yourselves at the beautiful evening meals and social events. You will learn much about our history and together, we will create a very special weekend as we build our future ~ Be the Change! I ask that you consider sharing and passing on what you experience and learn at MsC to folks back home in your cities and towns. Welcome home MsC family, I am delighted you are here!

MTTA LEGACY PROJECT

Past generations of Leaders and Educators in our community have left our M/s community due to age, involvement with other activities, or passed away, all without leaving a record of their educational contributions.

MTTA has begun a new project named "MTTA Legacy Project." Under this project, video recording sessions have commenced with our Community's Educational Leaders. The primary purpose of these recordings is to preserve those teachings such Leaders regard as essential information that they would like to leave to the future generations of our Community. Each recording would represent their individual Educational

Legacy. We will encourage individuals who wish to contribute more than once.

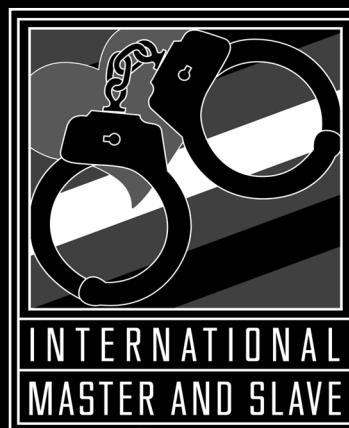

The recordings may include brief interviews or bios by way of introductions but, the goal is specifically to record topic driven educational elements rather than life stories, or anecdote driven accounts. At the same time, those who have been instrumental in establishing significant lifestyle organizations or events, who wish to preserve the history of such things, will be encouraged to contribute. Eventually the recordings will be available for the community although how, when, and where is yet to be

slave RAVEN

She has presented nationally and locally on leather care, M/s relationships, and general BDSM issues. OUR TRADITIONS LIVE!

The Saturday evening program "Our Traditions Live!" started in 2009 when the Master slave conference moved to Labor Day weekend for the first time. This year, our Traditions Live special speaker is Dr. Lori Beth Bisbey known as Morloki's Jewel. Dr. Lori Beth Bisbey is an Advanced GSRD (gender, sex, relationship diversity) therapist, sex & intimacy coach, and psychologist whose expertise lies in working with people to explore their sexuality, gender, and relationship styles.

The evening begins with the traditional formal leather banquet, followed by an inspiring presentation of history and traditions with the participation of Mama Vi Johnson from the Carter Johnson Leather Library. The library has been an integral part of MsC for years, fulfilling our commitment to our history and traditions. Since the passing of MTTA Board member and Vice President Master David Cook in 2017, we are grateful to dedicate this evening and program to honor Master David, who for more than half a century lived the leather and master-slave dynamic and took immense pride in teaching history and traditions to the new generations.

The evening culminates with the traditional awards night, when we present and bestow our seven awards on individuals who have made a difference in our community.

NORTHEAST MASTER/slave CONTEST 2025

The purpose of the Northeast MASTER/slave title is to help raise awareness and appreciation within the leather community for the Master/slave relationship, and to provide a titleholder pair who will serve as an educational resource, role models, and champions for the M/s lifestyle for the leather community. In addition, the contest serves as a feeder for the International Master/slave Contest.

This contest is a celebration of the Master/slave dynamic and is an official feeder to the International Master/slave Contest. The Northeast Master/slave contest is for couples who self-identify as Master/slave regardless of gender or sexual orientation. The titleholders will be expected to use the title to help educate the general leather community about the Master/slave lifestyle. It is hoped that the titleholders will be a valuable resource for the Master/slave community.

OUR HISTORY: NORTHEAST TITLE HOLDERS

IN MEMORIAM

During the past years we have lost many family and friends from our community. It has been the tradition at the Master/slave Conference to hold a Candle Lighting Memorial to honor and remember those we have lost. An additional candle will be lit in remembrance of all the family members of our attendees. This year, the memorial will be held at 12:30 PM on Friday at the Chesapeake Ballroom. After the memorial, there will be a procession to the Sanctuary and flameless candles will be placed next to the pictures of the lost ones. The pictures and candles will be displayed all weekend in the Sanctuary. Attendees who have lost loved ones can bring their pictures and place them on the table in the Sanctuary.

slave AFFIRMATION

House Annwn

House Annwn is a queer lead power exchange, leather house of like-minded individuals with mutual interest in high protocol, ongoing personal growth, integrity, accountability and community.

https://fetlife.com/House_Annwn

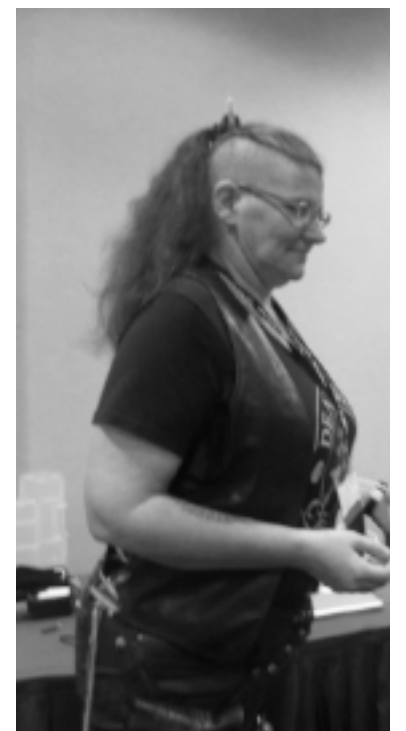

The slave affirmation ceremony began as the vision of slave barb, International slave 2007. slave barb felt the need to provide the opportunity for peers and elders within the slave community to recognize individuals who had done the tough inner work of living a life of obedience over a significant period of time. True to slave barb's vision, this ceremony acknowledges one individual's achievements, struggles, joys, contributions, and commitment to their slave journey.

The individual being recognized must have demonstrated the core principle values of honor, integrity, humility, and respect over a sustained period of time.

This ceremony can be viewed as a joyous coming of age or a rite of passage that is being acknowledged by, and shared with, fellow slaves.

Join Edie for an all-levels yoga class. Bring a mat or a towel, and an open mind. We will move slowly and mindfully, letting breath lead the way. No experience required. However, if you are a seasoned practitioner, you will be challenged as well! We will warm up the body focusing on inviting the breath to coordinate each move with the inhale and exhale as we do a few sun salutations to lead us into our practice, and prepare our body for deeper movements. Final relaxation will include breathing exercises as well to ready us for stillness.

IN LOVING MEMORY AND GRATITUDE

Sir Stephen,

You lived your life dedicated to the service of your fellow human beings, and especially to our Master/slave Community. You were a unique individual and conducted your life with integrity and honesty.

Our community – from elders to novices – will remember your insightful contributions and kind, gracious manner. Your life and your legacy inspired all who were fortunate to know you and will live on in our lives for years to come.

Your service as Advisor, Mentor, Board member, MTTA Vice President, and Associate Producer of the Master/slave Conference for over a decade, guided and shaped who we are today. Your contributions to the book, “Our Lives, Our History” continues to inspire and educate all who seek to understand the diversity of Master/slave relationships. Our appreciation and gratitude go to you, for your years of vision and work, building the MTTA Legacy Project, preserving our history and those who make it.

With our deepest gratitude for sharing your life and wisdom with us, and with profound respect for the standards you lived, MTTA and the Master/slave community thank you, Sir.

We are forever grateful.

YOGA PANTS & HOCKEY DAD; REAL LIFE M/s MASTER PENGUIN & slave GINNA

We all have the fantasy picture of what the perfect Power Exchange relationship looks like, with all the leather and chains. But when real life comes calling, the "real" dynamic tends to look a lot different. We discuss ways to ensure that your dynamics can still be fulfilling when wearing yoga pants instead of skimpy leather outfits. With real life responsibilities like taking kids to scouts or band practice, how can the hockey dad and yoga pants mom make time to feed the dynamic that we envisioned in the beginning?

INCORPORATING A CEO/COO MINDSET INTO OUR M/s DYNAMIC PB KANE & slave V KANE

In this class we discuss the parallels of a M/s Dynamic compared to a CEO/coo business template. Together we will explore how roles compare to each other by defining hierarchy and responsibilities of each. We will talk about trust and interdependence through a foundation based on empowered communication. Finally, we will recognize the differences between consensual, intimate relationships vs. professional structures and how to pull from each to enhance your own dynamic.

CODEPENDENCY IN POWER EXCHANGE MASTER MALCOLM & slave FARRAH

This thought-provoking presentation explores codependency in Power Exchange and kink. Codependency is a complex pattern of interaction that can occur in any type of relationship, but due to the power imbalance in Power Exchange and cultural context of the kink community, can be particularly difficult to navigate. Drawing on current research and clinical experience this workshop guides attendees through the manifestation and consequences of codependence in Power Exchange and kink dynamics including; examination of key characteristics of codependent behavior, strategies for addressing codependent patterns, and the impact of codependency on consent and individual mental health. This presentation is designed for anyone seeking a deeper understanding of the intricacies of Power Exchange relationships, as well as individuals struggling with codependency or a history of trauma and abuse. Whether you are new to the kink community or a seasoned veteran, this presentation provides valuable insight on navigating the challenging terrain of service, caretaking, and codependency in kink and Power Exchange.

FALLING GRACEFULLY V2.0 MASTER ICEDOG & slave RAVYN

We are often terrified at the notion of failing. Society tells us that being a failure sucks. Over and over, we see reaffirmations of these false narratives. In reality, failure can, and often does, lead to success and generally favorable outcomes. The difference is how one reacts to failures and mistakes, intentional and unintentional, how to make things right, accepting our limitations, and working through them. This class takes us through some of our "failures," past (v1.0) and present (v2.0), to help show how they can be graceful.

WHAT IS M/s? DEMYSTIFYING THE DYNAMIC NEKO & KONEKO

Curious about Master/slave relationships but unsure where to start? This class unpacks the fundamentals of 24/7 power exchange, exploring what makes it different from other dynamics, common myths, and how to determine if this path is right for you. Ideal for those taking their first steps into the world of consensual authority exchange.

SERVICE STATION: SLAVE INVENTORY & ASSESSMENT slave PASSION

Within M/s there is an emphasis on what type of service a slave can provide in his or her role. We are going to dig a little deeper than a service resume and take an inventory of where we are right now. What do we have to offer, what are our qualities as a slave, and what resources are we able to deploy in our relationship or our search for one? Next, we will make our assessment of where we are, what our priorities are, what is essential to who we are, and what we need. We will also identify our pitfalls and challenges. Come ready to go through this exercise from an honest and open place.

RISKING IT ALL: TRANSITIONING AN EGALITARIAN RELATIONSHIP TO M/s

MASTER JIM & slave DEE

Even if you know your current relationship has elements of an authority exchange, how do you transition a long term egalitarian relationship to an intentional authority exchange? MasterJim and dee describe the value of understanding who they already were in their marriage to understand better how to transition to an authority exchange. They will discuss the process, challenges faced, and lessons learned in the steps towards creating their new dynamic

LEARNING TIPS FROM A LEATHER GRANDPA

MASTER TAINO

During his quarter-century journey as a Master, the experiences of Master Taíno have been many and have shaped his Mastery, his philosophy and his teachings. In this class, Master Taíno will address several aspects of the Master/slave relationships that he has learned throughout the years and that he considers essential to better our M/s relationships. Join us to pick up the wisdom of Master Taíno, now named as a Leather Grandpa.

PROTOCOLS FOR INDIVIDUALS WITH MENTAL HEALTH CONSIDERATION IN M/s DYNAMICS

PB KANE & s V KANE

This class is intended for those seeking to develop protocols that support and accommodate mental health challenges. We will concentrate on crisis management, consent models, and effective communication, with mental health as a priority. We will also discuss how to create adaptive protocols that promote stability, trust, and emotional well-being with a mental health focus, while preserving the integrity of Total Power Exchanges or M/s Dynamics.

ACCOUNTABILITY IS LOVE NOT BLAME

MASTER BLINDDANCER & TOUCHGODDESS

Join us in challenging how we think about accountability and improvement. Holding ourselves and our partners to the highest standards need not be about fear of disappointment and focusing on mistakes. We will dive into tools for focusing on our steady, ongoing improvement rather than on mistakes and disappointment. We will talk about accountability for the small every day improvements as well as the bigger challenges to our dynamics. We will start with personal accountability and expand that to tools for loving, connected accountability.

SERVING WHILE BEING SERVED

SIR DADDYDAUN & slavegirl J

Sir DaddyDaun was raised in a Southern Baptist family with eight, yes eight, ministers in Her immediate family. Service is the very core of Her being. Those roots have morphed from 'organized religion' to a broader spirituality. She not only had to come to grips with changing how She served Her Higher Powers but how to do this while allowing another to serve Her. Meanwhile Her slave, girl j was raised to never 'buy into' any religion ever. Ever. Breaking away from those rules, she found her calling was to serve a Master who served Their Higher Powers. Join Sir DaddyDaun and slavegirl j as T/they share how T/their separate paths of Master and slave joined into one of a spiritual Master/slave dynamic.

Whether as a caregiver, for yourself, or for your loved ones, having all pertinent medical information prepared and available will help you navigate any medical event. In this session I will share what I have learned, what I have used, and what has been most useful.

ROUNDTABLE: UNPARTNERED, UNFETTERED, UNATTACHED: A DISCUSSION OF BEING SINGLE IN THE M/s COMMUNITY

CHAI

Master/slave. The terms suggest being connected. But everyone who enters this lifestyle may not have a partner. Indeed, there are some in the lifestyle who may not want or need a partner. For those who are seeking to find a partner, how does one navigate that period when you are not attached. For those who are not actively seeking a partner, but who are unconnected, how does one navigate the pressure to acquire a relationship? What if you're not sure exactly what relationship dynamic suits you? How does one avoid feeling like the odd person out? This discussion is for you, as we explore how to navigate being solo in the lifestyle.

GROUNDING, CENTERING, & CONNECTING IN AUTHORITY EXCHANGE RELATIONSHIPS TOMO

In martial arts, principles like center, balance, alignment, and connection are essential for effective, grounded technique. These same principles can offer powerful insight into authority exchange relationships, especially when applied to how we lead, serve, and stay present through challenge. In this class, Tomo draws on decades of martial arts training and experience in Authority Exchange relationships to explore how we can strengthen our connection and alignment from both sides of the dynamic. We'll look at how staying grounded, emotionally, mentally, and energetically, supports a more intentional exchange of power, even during difficult or uncertain times. Together, we'll examine alignment from both perspectives, explore how the Leader can guide the dynamic with clarity and purpose, and how the follower can navigate obstacles and reconnect with their Master's path with grace and integrity. This class is an invitation to deepen your practice of authority exchange through conscious presence, mutual alignment, and a shared center. All who are interested in or engage in Authority Exchange are welcome.

PUSHING LIMITS DOMINA ALLURIAH

Most who identify on the Left side of the slash has heard at one point or another "I have no limits" or "I want to have my limits pushed". Without negotiation and consent we can't even begin to know where to start. But what does it mean when you DO know? And how do you do it? After understanding the basic fundamentals and putting them into practice, we often grow and evolve beyond our first steps and often we yearn for harder; for more extreme. In this discussion we will go over what it takes to know when you're ready and how to push past your limits. This class is not exclusive to one side of the slash or another. As a D type how do we safely, patiently and carefully help ourselves as well as our s-types develop and as an s-type, how does one ask, or approach and respectfully request more? The misconception is that our limits are simple and easy to "push" but the reality is much more complicated and nuanced. Together, we'll work to peel back the layers and move forward on our journeys without going too hard too fast and burning ourselves out or souring ourselves altogether by biting into, or off, more than we can chew.

THE BEDROCK OF AN M/s RELATIONSHIP MASTER DON & orja

There are certain qualities within an M/s relationship that form the bedrock of that relationship. The bedrock is basically the

foundation of what supports a relationship and continues ;to make it strong by giving it a sound basis from which to grow and flourish. Join Master Don and orja as they discuss what makes up the bedrock of their Ms relationship and how that relationship has lasted almost 30 years.

REDISCOVERING THE slave HEART; REKINDLING JOY IN SERVICE IN LONGER TERM DYNAMICS slave GAIA WITH MASTER DANTE

We spend so much time talking about building dynamics, but what happens when one feels they've lost touch with their slave heart? Join us for a vulnerable discussion about slave Gaia's journey from finding herself frustrated, angry, ashamed and even resenting service many years in, to discovering new dimensions of surrender and the place she always needed to be in the first place. What happens when you have competing needs? Wanting to be respected, capable, and strong but underlying all of those voices is a deep need to be a joyfully surrendered doormat? How does one justify fighting passionately for societal equity while begging for utter personal objectification and inequity? Join us as we share the journey back to center, where she found her slave heart beating stronger than ever, and how reconciling these questions has dramatically changed the shape of our lives for the better.

EMBRACING THE MASTER/slave YOU ARE

MASTER RETRO BELLA & slave BOYDRAKE

As Masters, we often focus on the mechanics of leading our dynamics, but just as crucial is embracing the leader we are within. This class will explore how our identity, values, and personal experiences influence and shape our unique leadership style in Master/slave dynamics. Through reflective exercises, group discussions, and actionable tools, you'll gain clarity on what it means to lead authentically on your own terms, not by imitating someone else's idea of what a Master should be. Whether you're just beginning your journey or have years of experience, this class provides a space to confidently embrace your leadership role with pride."

ETIQUETTE IN & OUT OF THE M/s LIFE

slave JENNA

Etiquette is a lot of common sense that seems not to be common anymore. Learn the 'proper' etiquette for all different situations. Introductions, events, emails, social media, text, etc.

COMMUNITY; CAN'T LIVE WITH IT, CAN'T LIVE WITHOUT IT

MASTER D & slave PASSION

Why do some people need the community and others don't? How has your view of the community changed over the past 5 years? Many aspects of people's lives, where they live, where they work or even if they are going to work and what matters to them now has changed dramatically. With the current state of the country, many people are confused and scared. Let's talk about whether community is still important to us and the challenges we have really functioning as a community.

SCORCH THE EARTH & SALT THE LAND...

GODDESS INDIGO & slave SILL

Living an Authority Transfer Dynamics can involve unusual challenges on how to communicate when the discussion develops an emotional charge. Is it possible to have clear communication where all parties feel heard and recognized when authority imbalance is involved? Should one "step out of the dynamic" in order to fully express themselves? Join Goddess as we discuss multiple communication, de-escalation and repair techniques that are useful in creating a safe and effective space for resolving difficult situations.

MASTERS IN SERVICE

MASTER JIM & slave DEE

Service is at the heart of our dynamics and our community. Let's take a look at what service can look like from the Left

side of the slash. In this interactive discussion, Master Jim will share some of his personal journey into Mastery, and some of the different ways he has embraced being a "Master in service". Come prepared to share your experiences on this topic from both sides of the slash.

INTENSIVE: PLATONIC SERVICE

slave KITTY

Platonic is an adjective used to describe a way to be intimate and affectionate without being sexual with someone. In this intensive, we will examine how I have utilized platonic service regarding my community, leather family, and former owners. We will also explore how you can provide platonic service and use it to prepare yourself for that special person where service will transcend into intimacy on one or many levels.

It is essential to understand that platonic service can be provided and received by anyone, no matter what side of the slash they are on. In this interactive class, we will discuss many topics like: What does platonic service look like? What is the point of service if there's no sexual gratification in return? What does emotional intimacy look like? How do I structure platonic service from the left side of the slash. How do I use this type of service to fulfill my need to serve?

And so much more...

I encourage you to come and explore service from this novel perspective.

SATURDAY 11:00AM

TRANSPARENT MASTER; FROM PROJECTION TO REFLECTION

MASTER SKIP

Because, as the Talmud teaches, "We don't see things as they are, we see things as we are," relationships of all types are often rife with projection. If such projection goes unrecognized and unaddressed, then alienation, isolation and, ultimately, dissolution of the relationship is the result. In the case of a Master/slave relationship, the slave projects his or her ideas, feelings and attitudes regarding authority figures onto the Master, and if that projection includes anger, fear, blame or guilt, the toll it takes on both the relationship and the Master's self-esteem can be tremendous. In this enlightening presentation, Master Skip will explore the underlying psycho-spiritual dynamics that make it possible for a Master to stand in the middle of a slave's projection without moving, neither accepting the projection nor rejecting it and, in doing so, facilitate the slave's awareness of the projection, the Master's own sense of competency, and the realization of the true nature of the relationship for them both.

A HIGHER AUTHORITY: TEN PRINCIPLES FOR SERVICE

HENRY JAMES & JAMES TANIS

Some of us were taught that the Prime Directive is to protect the property, but what comes after that? This workshop proposes ten principles for a service person's life that empower us to meet a Master's desires, stay true to ourselves and enlivened in our service. These principles can inform us in those times when our path seems unclear to us or when our Masters are unavailable to guide us. We'll look at our own personal principles and consider whether there are principles that are more universal to the institution of consensual service.

NAVIGATING RESISTANCE IN M/s & POWER EXCHANGE DYNAMICS

MASTER SIR TEE & little KITSUNE

Whether in a Master/slave, long term, or new Dynamic, conscious or subconscious resistance to the agreed terms of the Dynamic can periodically appear - in behaviors, attitudes, or the follow through on expectations. On the surface it can appear only the s side of the slash can be

resistant; however, resistance can manifest for either side of the slash at different points in a Dynamic. Left unchecked and unrecognized, it has the potential to undermine the strongest of Dynamics. This class explores resistance, and how to identify when this is happening in both ourselves and our persons. Sharing from our 28 years living in a long-term Dynamic, we will delve into strategies to identify the source and navigate the impact internal or external factors have on our Dynamics. It is Understanding resistance and developing strategies to mitigate the impact can help overcome misunderstandings, provide opportunities for growth, and build a Dynamic for longevity.

HORMONES & HANDCUFFS: THE INTERSECTION OF TRANS IDENTITY & ALTERNATE LIFESTYLES

MX LAURA

Transgender and gender non-binary people have nontraditional relationships with their bodies, and it is imperative that members of the kink, BDSM, and M/s members understand who we are and the motivations that bring us to these worlds. This lecture examines the intersection between transgender identities and alternate lifestyles as well as how these lifestyles seem perfectly suited to offer such individuals access to pleasurable forms of sexual expression that bypass – and sometimes subvert – the difficulties often faced by trans and gender non-binary people otherwise, also arguing that these nontraditional forms of sexual expression are acts of political resistance that facilitate an ongoing examination of the human experience.

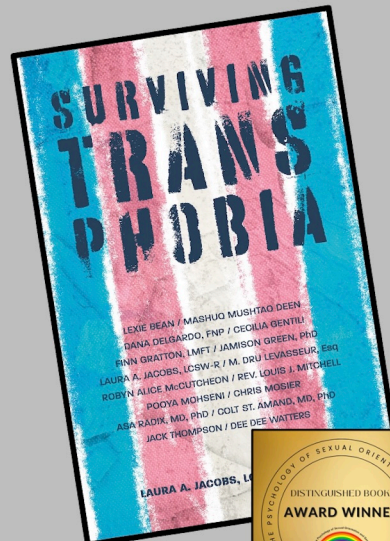

STRENGTH IN CHANGE: EXPLORING PERIMENOPAUSE & PARTNER DYNAMICS

MR. BLUE & BLUEFROST

Join us for a transformative session that explores the powerful intersection of perimenopause and relationship dynamics. This class offers essential insights, practical strategies, and emotional support to help navigate this pivotal life stage. Discover how hormonal shifts can impact communication, intimacy, and (un)balance within partnerships, and learn tools to foster deeper connection, resilience, and mutual growth. Ideal for anyone seeking deeper insight into the intersection of personal transformation and relationship dynamics.

SURVIVING TRANSPHOBIA

WE'VE SURVIVED, HERE'S HOW. AND IF WE CAN SURVIVE... SO CAN YOU.

Surviving Transphobia is an anthology by 16 prominent transgender and gender nonbinary celebrities and experts on endurance during times of severe hostility. We share the moments when we were vulnerable, were bullied, had needs dismissed, or were discriminated against, revealing our determination and how we have (sometimes) managed to thrive.

We also relate our thoughts on the current, well-funded campaign threatening our very existence. All so readers can learn from our experience, and hopefully, find joy. We also speak to our allies, those nearer or even those with less direct connection to transgender and nonbinary people but who are eager to understand and support our vulnerable community.

**STRUCTURAL INTEGRITY; BEST PRACTICES & PITFALLS IN M/s
PROTOCOL DESIGN**

MASTER DANTE, slave GAIA, slave SARAH, slave COCO

Rules, rituals, and protocols provide the structural pillars which define most authority dynamics. While some are common and widely practiced, no two relationships are alike and the same holds true of individual dynamic parameters. In their two decades of practicing M/s, members of House Amor have learned that not all rules, rituals, and protocols are created equal. In this class we'll dig deep into the nuance of designing, implementing, adapting, and and even discarding them at times. Master Dante will share the concept of his Protocol Priority Matrix. We'll look at how to assess the emotional, psychological, and practical impact of how any given rule, ritual, or protocol is designed and implemented. We'll explore recipes for success and failure, dispel a few sacred cows, and offer new perspectives on the way these invaluable tools support and inform our dynamics.

WHEN IT ALL FALLS APART

MASTER NIKOLAS

This class will focus on what happens when the dynamic falls apart. How do we survive? Move on? How do we pick up those broken pieces? This class will be interactive in hope of sharing our journeys and how we heal.

SELF CARE: WHY WE ALL NEED IT

LADY O

Self-care is important to maintain a healthy relationship with yourself as it produces positive feelings and boosts your confidence and self-esteem. Self-care is necessary to remind yourself and others that you and your needs are important too. Learning how to establish a healthy work-life balance, stress management, and better health are vitally important for a positive outlook in your life.

WHEN THE UNEXPECTED HAPPENS

MASTER JAMES & miss WENDY

**BEYOND OBEDIENCE: CULTIVATING EMOTIONAL
CONNECTION IN M/s DYNAMICS**

NEKO & KONEKO

Power exchange goes beyond rules and protocols—it thrives on emotional connection. This class explores how to balance authority with intimacy, recognize and meet emotional needs, and incorporate rituals that reinforce trust and deepen your bond. You'll gain tools to enhance the

emotional richness of your M/s relationship.

INTENSIVE: MASTERING AROUND OUR SCARS

RAVEN KALDERA

When we talk about experiences of trauma and PTSD in the Master/slave demographic, we tend to assume that it's the slaves with the problem, and the master's job is to help them deal with their issues. But many of us masters have histories of trauma and PTSD as well, and the prevailing culture in this demographic often discourages us from talking about that. We're supposed to pretend that we are always strong as a rock, and never flinch or get triggered. How do we learn to master around our scars, creating a framework where our trusted slaves can support us? Let's talk about how to be the one in charge while engaging in this ongoing struggle.

This class is for M-types only (you get to self-identify), and will be part roundtable discussion.

NAVIGATING MENTAL HEALTH CHALLENGES WITHIN AN M/s DYNAMIC

MASTER PENGUIN & slave GINNA

Does having mental health challenges automatically make it so that you cannot be in a healthy M/s dynamic? Not necessarily. In this discussion, we hope to show you tools to help you navigate your M/s dynamic despite mental health diagnoses. Autism, PTSD, ADHD, Trauma, Depression, and more can make navigation in the dynamic trickier. We will be discussing ways to improve your relationship while working toward better mental health. Especially in these challenging times, daily stressors can make things even more difficult. We will be also discussing expectations for coping with mental illnesses and greater awareness about what behaviors can be managed within a diagnosis as well as how we perceive mental health differently as Masters and slaves.

YOUNG LEATHER: AGE, EXPERIENCE, & TIME

MASTER BRADFORD & girl PIXIE CATT

When you hear "young leather" you probably think of a 18-30-year-old, who has just put on their first pair of boots and walked into their first bar or have somewhere between 0-5 years in the lifestyle. You also may think of the "children" who have no idea of the history, the past, the struggles and sacrifices made before their lifetime. However, I'm here to change that. We see a constant struggle in our community both nationally, and locally in bridging the age gap between the elders, and older generation of our community and the younger, new or upcoming Leatherfolk. In this class, you will learn the versatile group that "young leather" can cover, as well as the similarities and differences, making it easier to talk, bond and grow with the younger generations. To create a community that is a safe haven for our alternative lifestyle, we must make sure we have raised individuals to carry it on.

THE GENERATION GAP: ELDERS & THE NEW GENERATIONS

MASTER TAINO

Kinky baby boomers are now old and need to pass the torch to the younger generations. What is the responsibility of the elders? What should be the approach of the newbies? Master Taino has a lot of experience working and mentoring young folks and will share his ideas and experiences on the topic. He will lead a discussion on how to make different generations to work together, and how the new generations can live their kinks and M/s relationships their way and contribute to our community.

SLAVES - HOW MUCH IS TOO MUCH?

TOMO

As slaves, we often strive to align ourselves with the will of another. But over time, the line between surrender and self-sacrifice can blur, and when it does, the impact can be lasting. In this class, we'll explore what it means to surrender with intention, and how to recognize when we may be giving beyond what's healthy, sustainable, or aligned with our core self. We'll discuss how to stay rooted in personal power and identity while offering deep and meaningful service, and how to recognize the difference between surrender that nourishes and surrender that depletes. Together, we'll reflect on questions like: Where is your line? What does "too much" feel like in your body, your mind, or your heart? How do we course-correct when we've given past our limits? Whether you're new to authority exchange or have lived in deep dynamic for years, you're invited into a thoughtful and honest conversation about the power of saying yes, and the importance of knowing when to say no. To provide a safe and open space for reflection, this class is limited to those who serve in hierarchical relationships.

MENTORS & MENTEES

DOMINA ALLURIAH

Mentors and mentees are an often overlooked component to growth in the lifestyle and world of Power exchange. Many mistake this as a form of power exchange and confuse it with intimate relationships. Mentors can be on either side of the slash, or switches, as well as mentees. This discussion will focus on the dos and don'ts, the important roles they play, and how enriching a journey can become if this type of role is employed. Having been on both sides of this kind of interaction, we will discuss the nuances and misconceptions as well as the purpose and reward of being either a Mentor or Mentee

RITUAL SERVICE: TURN THE MUNDANE INTO SOMETHING SPECIAL

HENRY JAMES & JUSTIN TANIS

24/7 relationships are often burdened with the mundane act of living. How do you keep the fire burning with dishes in the sink or the lawn needs mowing or the kids have the flu? We will explore how to bring intention, presence, and meaning into something ordinary. It's not about adding complexity, but depth. By bringing awareness, gratitude, and intention into the smallest acts you infuse the everyday with the sacred and strengthen your dynamics.

MOVING YOUR KEYS TO THE OTHER SIDE

ELDEST SAINT

You've served for years. Or ruled for decades. And then one day... it shifts. This class explores what happens when someone transitions their public identity in the M/s community, from slave to Master, or Master to slave. How do you know it's real? How do you explain it to others? How do you navigate stigma, shame,

and the fear of being seen as "less real"? Most of us are not carved in stone. We are people. We grow. We break and rebuild. This class offers thoughtful guidance on rebranding, reclaiming, and ritualizing your transition with honesty and dignity. Saint leads a personal and cultural examination of what it means to change your keys, claim a new name, and begin again without erasing who you were.

BEYOND BEHAVIOR: MASTER & slave AS IDENTITY

CHAI

Participants will explore identity, the role of community in identity development, and identity disruption. Exercises help individuals define their personal identities and then exercises and education will be combined to strengthen M/s identity in and out of relationships.

Yes, they've gone Woo baby. But woo with practicality! SHADOW TANGO; THE SOUL DANCE OF MASTER & slave
slave RICK

A Master/slave relationship is a dance of souls, each drawing the other into a ferocious embrace that facilitates healing, growth and ultimately egoic surrender in both the Master and the slave.

In this presentation you are invited to dialogue with slave Rick as he shares some thought provoking realizations derived from his 25+ year relationship with his Master, and from his experiences as a practicing psychotherapist within the BDSM community (www.KinkTherapistLosAngeles.com), that will assist you in recognizing the enticing rhythms of your own particular D/s dance.

THE DOUBLE EDGED SWORD OF CONSENT & OBEDIENCE
slave 705

Consent and obedience are cornerstones of many M/s relationships. However, they can sometimes seem at odds, especially in dynamics built on absolute authority. This session invites an open, guided discussion on how these two principles can not only coexist but strengthen each other. We'll explore real-world strategies for negotiating, maintaining, and honoring consent while practicing unwavering obedience, drawing from both lived experiences and established protocols. Whether you are new to Master/slave dynamics or refining a long-standing relationship, you'll leave with a deeper understanding of how to balance these concepts without compromising either trust or structure.

MASTER/slave RESEARCH: INSIGHTS FROM THE CUTTING EDGE
DR BRAD SAGARIN

As Master/slave and other Authority Transfer relationships continue to capture the vanilla world's imagination, researchers are increasingly turning their attention to understanding the dynamics of these relationships. In this session, we'll take a deep dive into the latest research on consensual Authority Transfer and Master/slave relationships. We'll explore findings on 24/7 dynamics, the negotiation of ongoing consent, community perceptions of M/s, and how these relationships are navigated in daily life. We'll also discuss what sets M/s apart from other forms of BDSM and examine how researchers are beginning to recognize the emotional depth, structure, and mutual care that characterize these powerful connections.

UNREASONABLE HOSPITALITY & MAGICAL SERVICE
slave CITA

In Unreasonable Hospitality by Will Guidara, there is a core notion that ordinary experiences can be transformed into extraordinary ones by going above and beyond with sincere, thoughtful service that stems from intentional, heartfelt acts. When applied to an M/s relationship, "unreasonable hospitality" becomes a powerful expression of devotion and attentiveness that deepens trust, appreciation, and feeling valued. Prioritizing mindfulness, personalization, and generosity, while approaching service with genuine care, creativity, and thoughtful touches, the slave can elevate everyday moments into magical ones of authentic connection. Ultimately, "unreasonable hospitality" isn't about extravagance—it's about making someone feel they are truly seen and that they matter, which is a powerful gift in any relationship. Of course, the Master's manner of receiving service is an equally important expression of intention. Come ready to discuss service from either side of the slash and share ideas on how we can elevate service to create moments of magic in meaningful and delightful ways.

CLASS DETAILS

SUNDAY 2:00PM

WE BELONG HERE; INCLUSIVITY IN THE M/s COMMUNITY

MASTER RETRO BELLA & slave BOYDRAKE

Too often we hear about members of the Ms community not being welcome at conferences, events, meetings, or play spaces due to their ethnicity, sexual orientation, race, gender identity, socioeconomic status. We are a family and we need to support others. There is hope that we can find ways to create inclusivity at our events. Offering diverse classes, gender neutral bathrooms, safety measures so that everyone feels safe at an event, and so much more. We can work together to create a community where everyone feels seen, heard and respected.

HOLDING IT TOGETHER OVER THE DISTANCE

MASTER ROBERT & slave MEGAN

"I miss you," isn't the glue that keeps our long-distance [M/s D/s] together as nicely as we might hope. Let's talk about tools and coping mechanisms for maintaining relationships and dynamics. Time, distance, and life challenges are when [M/s D/s] becomes secondary. How do we intentionally keep us together when life is trying to tear us apart.

TOOLS FOR CHANGING BEHAVIOR

slaveboy JOSHUA

Changing behavior is hard! This class will cover techniques and strategies for making lasting changes to our own behavior, and how we can guide and support others in changing their behaviors, regardless of your relationship role (master or slave or something else, solo or partnered). How do we make protocols and habits stick? How do we figure out what roles and approaches work best for us when giving or receiving support in making difficult changes? How can we overcome resistance to change? This workshop will provide tools to help you make sustainable changes to achieve your goals, whether in your M/s relationships, or in your daily life.

WRITING THE SACRED IN M/s

ELDEST SAINT

In M/s dynamics, not all service is physical. Some of it is written, sung, whispered, and remembered. This class explores the power of storytelling, ritual writing, contracts, and documentation in power exchange. From training logs and House charters to devotional poetry and personal myth, Saint guides participants through the living record of a dynamic. Whether you're the archivist preserving structure or the oracle dreaming the future, you are part of the mythmaking. Leave with tools to record your Leather legacy in both practical and poetic form.

BEYOND MATCHING KINKS: RETHINKING COMPATIBILITY IN MASTER/slave DYNAMICS

DR BRAD SAGARIN

What makes an Authority Transfer relationship truly work? New research from our lab—conducted with people in a variety of BDSM dynamics—challenges the popular idea that shared kinks are the key to satisfaction. Instead, our findings show that a partner's willingness to indulge the others desires—even when those desires aren't shared—is more strongly linked to relationship satisfaction than compatibility alone. In this session, we'll explore our recent study alongside broader relationship research on adaptability, partner responsiveness, effective communication, and shared experiences—all shown to support long-term relational success. We'll examine how these principles play out in Authority Transfer relationships, where the question of "compatibility" often looks very different than in vanilla partnerships.

PANEL: AS THE MASTERS

MODERATOR: MISTRESS SUSAN; MASTER DANTE, SIR DADDYDAUN, GODDESS INDIGO

INTENSIVE: WRITING YOUR OWNERS MANUAL ON EITHER SIDE OF THE SLASH

SIR EDGAR & slave RAVEN POE

This in depth class goes over the full owners manual, and a Google file will be given out at the end of class so you can start your own. From how you identify, to what you like, it's all important in your owners manual.. the owners manual is a journey of self discovery, and development.

ROUNDTABLE: ARE YOU INTERESTED IN RUNNING FOR AN M/s TITLE?

NON-BINARY & TRANSGENDER DYNAMICS: UNDERSTANDING THE TRANSITION IN YOUR DYNAMIC

MASTER BRADFORD & girl PIXIE CATT

Being in a dynamic with a person is complicated enough. Add in a transition for someone who is Female-to-Male or Male-to-Female, or someone who identifies on the non-binary spectrum, can make those already complicated ideas and scenarios, seem daunting. From medical challenges, sexual differences, and navigating the waves of changing in moods and comfort levels (both mentally and physically); we are here to help add some guiding points along the road of non-binary and transgender persons within a dynamic.

AGE DIFFERENCES: THE CHALLENGES THAT GO WITH IT

MASTER DON & orja

Master Don and orja are a Master/slave couple that have a fairly significant age difference between them. What type of challenges does a couple like this face? How do they deal with it? How have they dealt with illness and the natural progression of aging? How do they integrate their likes and dislikes that come from being 24 years apart? How do you form such a close bond with someone from a different generation? Master Don and Petra share how they do it and some of the struggles they've been through.

ONE COVER: BRIDGING THE GAP BETWEEN GENERATIONS OF LEATHER

MASTER DADDY ZULU

The purpose of this class is to discuss some differences between The Old Generation (TOG) and The Next

Generation (TNG,) to discuss some of the myths of "Old Guard," to share our common knowledge, to find tools to learn from each other to help make our community strong, and to explore and share resources.

IMPOSTER SYNDROME

MASTER SIR TEE & little KITSUNE

Whether new or experienced, imposter syndrome can, at times, undermine our beliefs, sense of self, attitudes, and personal confidence (in our abilities, skills, knowledge, etc.). This class is a deep dive into the subversive internal voice of self-doubt and explores how, when left unchecked, it can create real challenges to our identities and relationships - especially when we bring it into our dynamics. Join us as we explore imposter syndrome - from both sides of the slash; we will review strategies for recognizing it, potential sources, the

impact on the self and the dynamic, and approaches to address imposter syndrome.

MASTER/slave RESEARCH

Research on Master/slave relationships began at the Master/ slave Conference 2015 and will continue this year at MsC 2019. This venue will provide a potential population of approximately 500 lifestyle Masters and slaves to start their studies. The diversity found at MsC is a good beginning as many of you are coming from across the United States, Canada and Europe.

MAST International membership has many more lifestyle Masters and slaves who could contribute their experiences. The range of potential contributors to M/s research spans continents. Together, MsC and MAST International are dedicated to demystifying M/s.

Two researchers have joined forces to find facts about the M/s lifestyle and much of the kink associated with us. Dr. Brad Sagarin is a professor of Psychology at Northern Illinois University. He brings a dedicated team of graduate students. Dr. Bert Cutler, aka Master Bert, has decades of M/s experience with MAST International and Butchmanns Inc. and is a longtime attendee and presenter at MsC.

They believe that rigorous research, conducted by open-minded researchers in a confidential manner, has the potential to benefit both the academic community and the Master/ slave community. At this

time they have three studies in mind:

1. They have begun conducting interviews with people in long-term Master/slave relationships. This work is an extension of Master Bert's doctoral dissertation, and it is being conducted by Master Bert

and graduate students. Their goal is to develop a deeper understanding of the nature and dynamics of Master/slave relationships by recording the thoughts, stories, and observations of the people who live those relationships.

2. They would like to conduct a study on whether Master/ slave relationships have the benefit of preserving and bolstering the willpower of the slave. In recent years, social psychologists have begun to study ego depletion, the idea that willpower acts like a muscle that can be temporarily depleted. One theory to test is that slaves might be able to persevere longer than most people at ego-depleting tasks if the tasks are taken on at the order of the Master.

3. They would like to invite Masters and slaves to complete surveys that they have been running at Leather/BDSM conferences such as the Southwest Leather Conference in Phoenix, Arizona. All of their research follows three critical ethical principles: Informed Consent, the Right to Withdraw, and Confidentiality.

a) Informed Consent means that before anyone participates in a study, they are fully informed about the details of the study so that they can make an informed decision whether or not to participate.

b) The Right to Withdraw means that participants can withdraw from the study at anytime without question or penalty; they can stop at any time.

c) Confidentiality means that they make every effort to protect the confidentiality of the participants and their data. Where possible, they collect only anonymous data that cannot be linked to the participant. When identifiable data are needed, such as audio taped interviews, they protect the confidentiality of participants by encrypting the data and by restricting access to that data, to only members of the research team. In addition, all of our proposed research is reviewed by Northern Illinois University's Institutional Review Board. They do not begin data collection until that Board has approved the study.

Over time, the results of these and other research efforts can potentially provide reasoned facts about our lifestyle that could influence the understanding of human behavior as well as laws and how laws are interpreted.
